Memo

To: All Service Users of UHW Laboratory
From: Carmel Cullen
A/Laboratory Manager
Date: 13/12/2022
Subject: Inclusion of Laboratory INAB Accreditation Comment on Laboratory Reports

To all service users of UHW Laboratory,

It is a mandatory requirement of our ISO15189 accreditation to include a statement regarding our accreditation status on all reports/results from the laboratory.

As of today Tuesday 13th December 2022, the Pathology Department UHW will commence inclusion of an INAB "Accreditation Statement" on all relevant patient reports/results.
This will appear as a new test with a standard result as follows:

Test Code:	ZINAB
Test Name:	Accreditation Statement
Result Code	170MT
Result Code Expansion:	An INAB Accredited Testing Laboratory, Reg. No. 170MT

This comment will begin to appear on all laboratory reports/results in the coming days/weeks.

Where applicable we would ask you to ensure that this test is mapped to a corresponding test code on destination systems (e.g. GP Practice Management Systems; Socrates, HealthOne etc).

Yours

Carmel Cullen
