Integrated Inspection Report – Tower Nursing Home

Dear Mr. Stokes,

The nursing homes inspection team visited the Tower Nursing Home on the 4th October 2006 and on the 18th October 2006.

There were 18 residents on this date. The nursing home is currently registered for 21 residents.

The following issues require your attention and action:

Article: General Nursing Standards

Required Action: A care plan to be devised for each resident to be reviewed on a regular basis. Training on care plans for individual members of staff. To be reviewed by inspection team in December 2006.

The Chairperson of the inspection team is to be notified on or before the above date(s) indicating the steps taken by the home to carry out the actions as required under the regulations.

Signed:

Inspection Team Member
