Encountering, Assessing and Managing Pain

The HSE’s Office of the Nursing and Midwifery Services Director (ONMSD) and HSELaND are proud to announce the launch of an exciting online learning resource for nurses and midwives across the Irish Health Services.

Aimed primarily at nurses and midwives, “Encountering, Assessing and Managing Pain” is a great resource for healthcare practitioners across all nursing/midwifery and medical disciplines.

Key Features:

- Introduction to theories of pain.
- Relevant to all care groups, Children, Adult, Older Person, and persons with Intellectual Disability.
- Practical instruction on pain assessment.
- Detailed overview of pain assessment scales.

How to register and access the course

Step 1 Visit www.hseland.ie
Step 2 ‘create new account’ or ‘login as registered user’.
Step 3 Go to ‘learning resources’.
Step 4 Simply search ‘Encountering, Assessing and Managing Pain’.
