Individual	10/01/2019	<p>I am writing to you under the Freedom of Information Act 2014 to request the following information from each of your hospitals. Please could I enquire as to what system your hospitals use to record clinical and non-clinical incidents that occur within each hospital? Specifically, I would like to know the following:</p> <ol style="list-style-type: none"> 1. Does the hospital use an electronic system to record and manage clinical and non-clinical incidents including patient safety incidents? 2. If yes to question 1, what is the name of the system used to record and manage clinical and non-clinical incidents within the hospital? 3. In relation to the system named in question 2, is the system used for any other functions other than the reporting and management of incidents? 4. If yes to question 3, could you please detail what additional functions the system is used for (i.e. complaints management and risk management)? 5. Could you please provide the cost of the system named in question 2 for the last financial year (2017/18)? 6. If possible, could you please provide the cost of the system named in question 2 for the last 5 financial years? 	Admin Access	07/02/2019
Business/ Special Interest Group	14/01/2019	<p>I wish accordingly to seek clarification of a number of matters, under Freedom of Information to the extent you deem it necessary for an FOI request to be made in order to elicit the requisite information.</p> <ol style="list-style-type: none"> 1. HSE guidance available here states that “the National Immunisation Advisory Committee (NIAC) has never recommended a catch up programme for children born before 1st October 2016”. Has the NIAC been asked to offer a recommendation as to the benefit that would be derived from such a catch up programme? Has the NIAC recommended that no such catch up programme is desirable? Please provide details of all deliberations of NIAC in relation to this matter and copies of all correspondence between NIAC and the HSE in this regard. 2. Reports are circulating in national media to the effect that the cost of procuring a vaccination against Meningitis B will cost between €300 and €500. Obviously the purpose of all vaccination programmes is to make vaccination available to the population as broadly as possible and to secure economies of scale accordingly. Please provide details of all pricing information relating to the availability of the Meningitis B vaccine in Ireland. 3. The HSE guidance linked above suggests that the only category of concern for Meningitis B risk is children aged 1 and younger but information published by the US Centres for Disease Control and Prevention suggest that older ages would also benefit from vaccination and that certain at risk persons should definitely receive the MenB vaccine. How does the HSE reconcile these two different types of guidance? 	Refused	11/02/2019
