In relation to the HSE's National Clinical Guidelines programmes, I am seeking copies of all conflict of interest declarations made by the members of these groups. (This should include all sub-groups within each of the National Clinical Guidelines.) The timeframe I am referring to is from 2015 to the present. Please note: I am seeking copies of the declarations themselves (not summarised or aggregated versions). Given that these groups are involved in policy formulation, in my view, there is a strong public interest in releasing these declarations. In cases where a healthcare professional has co-authored a medical study, for example, their Col declaration is included as part of the study. In this case, where a healthcare professional has had an impact in designing healthcare policy, it is even more incumbent that their potential Col's are made publicly available so that the public can have confidence in the formulation of the clinical guidelines.
