PQ 15662/19: To ask the Minister for Health if assistance is available for young women that were affected by the HPV Vaccine and if he will made a statement on the matter.

Dear Deputy Healy-Rae,

The above PQ has been sent to my office for direct response to you.

To date there has been no scientific evidence to prove any obvious side effects to the HPV Vaccine. The HSE has no other information on this matter.

The HSE has however sought to provide the appropriate diagnostic, curative and supporting services to the individuals who have come forward with a range of symptoms.

We have met with them on a number of occasions to try creating a partnership but it has not developed, despite all our efforts.

I trust this information is of assistance to you.

Yours sincerely,

DR. KEVIN KELLEHER, FFPHM, FFPHMI
