**PQ 27656/19 – To ask the Minister for Health if scanning facilities will be provided for the primary care centre in Balbriggan. – Louise O'Reilly**

Dear Deputy O'Reilly,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response. I have examined the matter and have provided the information requested below.

Balbriggan Primary Care Centre provides the following primary care services - Speech and Language Therapy, Occupational Therapy, Physiotherapy, Podiatry, Psychology services, Dietetics services and Social Inclusion Services. In addition there are Public Health Nursing, Dental, GP Services, Early Intervention and Primary Care Children's Services, Child and Adolescent Mental Health Services (CAMHS), Community Mental Health Team Services and Mental Health Day Hospital Services.

The only scanning facilities at Balbriggan Primary Care Centre are situated in the Dental clinic where there is an intraoral machine and an OPG (orthopantomogram) machine, which takes x-rays of the mouth.

There are no other medical scanning facilities available and there are currently no plans to install same at this location.

I trust this information is of assistance to you but should you have any further queries please do not hesitate to contact me.

Yours sincerely,

**Des O'Flynn**  
Head of Service Primary Care
