5th August 2020

Deputy Willie O'Dea TD,
Dáil Éireann,
Leinster House,
Kildare Street,
Dublin 2.

Re PQ 16613 20: *To ask the Minister for Health the estimated full-year cost if the number of audiologists working in public health service increased by 15%; and if he will make a statement on the matter.*

Dear Deputy O'Dea,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response. Your PQ above has been referred to me for response.

The estimated annual cost, if the number of audiologists working in HSE public health statutory services only increased by 15%, would be €0.6m.

The estimate is provided by the National Pay Unit of the National Finance Division and is calculated using the mid points of the HSE pay scales for all referenced Audiologist grade codes that had a WTE as at June 2020. From this, an average annual fully burdened salary is calculated (i.e. including average premium and employers PRSI) for the Grade and position. It is also adjusted upwards to take into account 2020 pay awards and pay cost pressures.

In addition to the pay costs above it is reasonable to assume that there are other non-pay costs associated with the recruitment process i.e. advertising, interview boards, possible travel expenses etc. which would also be incurred. There may also be ancillary support services associated with the new posts arising from the implied additional activity that would be undertaken as a result of the increased number of staff. Some of these services may be drawn from existing cost pools however there may be incremental costs incurred i.e. facilities costs, admin support, medical support teams etc. These have not been included in the estimates above.

The estimated annual cost of this increase must be considered in this context.

If you have any queries, please do not hesitate to contact me at sarah.anderson1@hse.ie or tel: 087 9423319.

Yours sincerely

Sarah Anderson
