**Re PQ 18084 20:** *To ask the Minister for Health the estimated cost of employing 250 speech and language therapists based on mid-point 2018 pay scales.*

Dear Deputy O'Reilly,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response. Your PQ above has been referred to me for response.

The estimated annual cost of employing an additional 250 Speech & Language Therapists (Grade Code 336Y) based on the mid-point 2018 pay scales is €12.4m.

The estimate was provided by the National Pay Unit of the National Finance Division and is calculated using the mid-point of the 2018 HSE pay scales. From this, an average annual fully burdened salary is calculated (i.e. including average premium and employers PRSI) for the Grade and position noted. It is also adjusted upwards to take into account 2020 pay awards and pay cost pressures.

In addition to the pay costs above it is reasonable to assume that there are other non-pay costs associated with the recruitment process i.e. advertising, interview boards, possible travel expenses etc. which would also be incurred. There may also be ancillary support services associated with the new posts arising from the implied additional activity that would be undertaken as a result of the increased number of staff. Some of these services may be drawn from existing cost pools however there may be incremental costs incurred i.e. facilities costs, admin support, medical support teams etc. These have not been included in the estimates above.

The estimated annual pay costs of employing additional staff must be considered in this context.
