PQ 10398/20 * To ask the Minister for Health the status of the Finglas primary care centre - Paul McAuliffe.

Dear Deputy McAuliffe,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question which you submitted to the Minister for Health for response.

Discussions with Dublin City Council (DCC) in relation to proposed Primary Care Centre for Finglas were delayed due to the Covid19 Pandemic. These discussions have been recently reconvened in an effort to conclude the site purchase from DCC on terms agreeable to both parties.

The HSE's feasibility studies on the site are still progressing. The HSE will be tendering for the services of a Design Team to progress the proposed project to completion in the near future subject to agreeable conclusion to the site purchase.

Yours sincerely,

Jim Curran
