Occupational Therapy presents with its most significant challenge in respect of paediatric services 5 - 18 year olds. This is due to historic deficits in paediatric occupational therapy services and is most evident in North Lee area. Cork Kerry Community Healthcare identified once-off funding and recruited additional Occupational Therapists in Cork to address the Occupational Therapy waiting lists for children waiting over 1 year for assessment and /or intervention. This initiative is having an impact on the current paediatric occupational therapy waiting times in Cork.

If I can be of any further assistance please do not hesitate to contact me.

Yours sincerely,

Teresa O' Donovan
