Dublin 2.

2nd October, 2020

PQ: 27972/20

To ask the Minister for Health if he will consider increasing the drugs payment scheme for intracytoplasmic sperm treatment.

Dear Deputy Mythen,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question (Reference 27972/20), which you submitted to the Minister for Health for response.

This would not come under PCERS remit. This is part of fertility treatments / services which are not covered by the state and are undertaken privately. This would be a procedure undertaken by a fertility specialist.
