To ask the Minister for Health if the HPV vaccine is available under the drugs payment scheme for an adult that has gone through a colposcopy and that has received a prescription for the HPV vaccine from their consultant; if not, the reason therefor; and if he will make a statement on the matter. -Róisín Shortall

Dear Deputy Shortall,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question (Reference 22880/20), which you submitted to the Minister for Health for response.

The HSE does not provide reimbursement support for vaccines under Community Drug Schemes including the Drug Payments Scheme. The HSE delivers vaccines through the immunisation programmes run by the National Immunisation Office. Further information in relation to HSE immunisation programmes can be found at <https://www.hse.ie/eng/health/immunisation/>.

Yours sincerely,
