REF: PQ ref 10346/21

‘To ask the Minister for Health if he will provide a Covid-19 vaccination centre in County Kildare that is accessible via public transport; and if he will make a statement on the matter’.

-Patricia Ryan TD

Dear Deputy Ryan,

The HSE wishes to acknowledge your representation. I have examined the matter and the following outlines the position:

Currently we are focusing on opening a Vaccination Centre in City West and plans are in place to develop a Vaccination Centre in Punchestown. There is significant work being undertaken at a national level as to how best to make the vaccine available to different cohorts of our population including those unable to attend a vaccination centre for any reason – this may involve Vaccination Centres, GPs, National Ambulance Service, Community Teams, transport partners or a combination of these.

There is currently a Covid-19 Testing Centre in place on the Punchestown site which operates a “Transport to Test” programme, this model is being explored in relation to extending it to the Vaccination Centre.

I trust this information may be of assistance to you.

Margaret McQuillan
