Re PQ 6451 21: *To ask the Minister for Health the average salary of a community development worker in the HSE.*

Dear Deputy Gould,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response. Your PQ above has been referred to me for response.

The estimated average salary of a Community Support worker is €39,515 per annum.

The estimates were provided by the National Pay Unit of the National Finance Division and are calculated using the mid-point of the October 2020 HSE pay scales. It is based on an average mix of grades from all staff categories associated with Community Support. From this, an average annual fully burdened salary is calculated (i.e. including average premium and employers PRSI).

In addition to the pay costs above it is reasonable to assume that there are other non-pay costs associated with the recruitment process i.e. advertising, interview boards, possible travel expenses etc. which would also be incurred. There may also be ancillary support services associated with new posts arising from the implied additional activity that would be undertaken as a result of the increased number of staff. Some of these services may be drawn from existing cost pools however there may be incremental costs incurred i.e. facilities costs, admin support, medical support teams etc. These have not been included in the estimates above.

The estimated annual pay costs must be considered in this context.
