Dear Deputy Carthy,

Thank you for your representation. The data available is a cumulative figure and doesn't have the breakdown of the numbers of healthcare workers by location. The system is an opt in system and to date a total of 292,961 number of healthcare workers have received a first and second dose of the vaccine. A total of 201,841 have received a first dose of vaccination and 91,120 have received their second dose,

I hope this provides you with assistance.

Yours sincerely
