***PQ 12687/21: To ask the Minister for Health the value to each hospital of the car parking charges system in tabular form; the amount raised from car parking charges if the system is under hospital control; and the amount made in payment from a private operator if the system is privatised***

---

Dear Deputy Ward,

I refer to the above Parliamentary Question which the Minister for Health has referred to the Health Service Executive for direct response.

Hospitals introduced car parking charges over the past decade to cover such services' costs without impacting the hospitals' budget for patient services. As demand for car parking at hospitals increases, so too does the associated cost of providing these services, such as the initial capital cost of purchasing or renting parking areas, the cost of developing extra parking spaces, the need to provide and upgrade security systems, provide staffing and general maintenance of the car parks.

The majority of acute hospitals around the country charge for parking at this stage, with nine acute hospitals providing free parking. The HSE does not have a single contract to provide parking services at all hospitals, instead each hospital has its own arrangements, which reflect their particular circumstances. Data collected as part of the Hospital Car Parking Review in 2018 showed that sixteen hospitals use a third party provider to manage their car parks although the car parks may still be owned by the Hospital. Some hospitals may have a third party to service parking meters, entry & exit barriers and security.

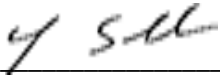

As you will be aware, there are three different types of hospital provision in Ireland:

- Health Service Executive (HSE) Statutory hospitals, owned and funded by the HSE.
- Voluntary public hospitals, most of whose income comes from State funds.
- Private hospitals

Income data is centrally available for HSE Statutory Hospitals only – accordingly the attached table provides the income generated from car parking in 2019 for HSE Statutory Hospitals. Approximately €12m was received in revenue from car parking charges in 2019. Data for 2020 is not yet available.

I trust the above information is of assistance to you, however, should you require any further details please do not hesitate to contact me.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Y Goff', written over a horizontal line.
