**PQ 13434- 21 To ask the Minister for Health the number of residents in each county that have received their first and second vaccination against Covid-19, respectively in tabular form; and if he will make a statement on the matter.**

Dear Deputy Carthy

Thank you for your query. There are 38 HSE vaccination clinics at various locations across the country to administer COVID-19 vaccines. There is at least one vaccination clinic in every county to support the vaccination of the general population in a safe and efficient manner. As well as these specific HSE vaccination clinics, there are many other sites registered where vaccines are administered; approximately 4,000. Unfortunately, a breakdown on vaccine administration by county of residence is not available at this time.

I hope this provides you with assistance,

Yours faithfully

---
