**To ask the Minister for Health if he plans to extend the reimbursement of costs by the HSE of the electronic blood glucose monitoring system FreeStyle Libre to all persons with type 1 diabetes; and if he will make a statement on the matter. - Neasa Hourigan**

Dear Deputy Hourigan,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question (Reference 14980/21), which you submitted to the Minister for Health for response.

Whilst it was anticipated that the review of FreeStyle Libre Flash Glucose Monitoring System would be finalised at the end of Q1 2020, the public health emergency that has occurred in the meantime has resulted in members of the Health Technology Assessment Group (HTAG), whose primary roles are in Public Health Medicine, being redirected fully to public health emergency duties.

Given the current situation, the HSE are not in a position to provide an exact date for completion of the HTAG review and publication of the advice note. The HSE needs to consider this information before a decision regarding further funding / reimbursement of FreeStyle Libre sensors is made.

Consultant Endocrinologists / Diabetes Nurse Specialists may apply to the HSE, on behalf of specific patients, for reimbursement support of FreeStyle Libre Flash Glucose Monitoring (FGM) sensors. This includes those persons with Long Term Illness (LTI) eligibility. The application process is undertaken by means of a dedicated online portal, which has been operational since 3rd April 2018. In line with the

recommendations outlined of the Health Technology Assessment Group, access to this product was made available to children and young adults (4 -21 years). However, the application process does cater for the Consultant to make an application in very exceptional circumstances for a type 1 diabetic patient outside of this group.

Yours sincerely,

Suzanne Doyle
