

30th June 2021

Deputy Cormac Devlin,
Dáil Éireann,
Leinster House,
Kildare Street,
Dublin 2.

PQ 24566/21 - To ask the Minister for Health the number of persons in each CHO area who have received an assessment for speech and language therapy and are now waiting on treatment for more than 3, 6 and 12 months and 1, 2 and 3 years as of 1 April 2021; and if he will make a statement on the matter.

- Cormac Devlin

Dear Deputy Devlin,

The Health Service Executive (HSE) has been requested to reply directly to you in the context of the above Parliamentary Question (PQ 24566/21), which you submitted to the Minister for Health for response.

The spread of COVID-19 is posing significant challenges for many service areas, including all Therapy Services. In light of these unprecedented challenges together with the Government's guidance on social distancing and on 'Cocooning' for those aged over 70, the HSE has had to reassess its operation of Community Therapy Services nationally, to ensure that the assessed needs of those clients with the highest priority are met.

Please find attached Appendix 1 which contains, in tabular form, details of the waiting lists in Speech and Language Therapy as of March 2021. This was the latest data available prior to the recent cyber-attack on the HSE.

The HSE is committed to delivering efficient high quality Speech and Language Therapy services to all eligible service users. In 2020, there were 165,657 patients seen by HSE community Speech and Language Therapy services.

I trust this information is of assistance to you.

Yours sincerely,

Maeve Raeside
General Manager Primary Care
National Community Operations
