23rd September 2021

Deputy Mark Ward,
Dail Eireann,
Leinster House,
Kildare Street,
Dublin 2.
e-mail: mark.ward@oireachtas.ie

Dear Deputy Ward,

The Health Service Executive has been requested to reply directly to you in the context of the following parliamentary question, which was submitted to this department for response.

PQ 41815/21

To ask the Minister for Health if there is any delay in the roll out of progressing disabilities services programme in particular to (details supplied); the reason for the delay; and the impact that this will have on persons accessing these services.

Details Supplied: Stewarts Care and/or the CRC

HSE Response

The HSE is committed to the full implementation of the Progressing Disability Services for Children and Young People Programme (PDS). PDS is a significant change programme for the provision of services and supports for children from birth to 18 years of age, in line with Sláintecare and the Programme for Government, in order to:

- Provide a clear pathway and fairer access to services for all children with a disability
- Make the best use of available resources for the benefit of all children and their families
- Ensure effective teams are working in partnership with families and with education staff to support children with a disability to reach their full potential.

PDS aligns with two clear objectives of The Sláintecare Report to:

- Provide the majority of care at or as close to home as possible
- Create an integrated system of care with healthcare professionals working closely together.

Children's Disability Network Teams (CDNTs) are being established to provide services and supports for all children with complex needs within a defined geographic area. CDNTs are teams of health and social care professionals, including nursing, occupational therapy, psychology, physiotherapy, speech and language therapy, social work and others. The team will work closely together in a family centred model, focusing on the child's and family's own priorities. Once all teams are in place, every child with

complex needs will have access to a team, regardless of the nature of their disability, where they live, or the school they attend.

Children and their families will have access to the full range of services and supports of the CDNT according to their individual needs. This includes universal, targeted and specialist supports, such as individual therapeutic intervention and access to specialist consultation and assessment when needed. Supports will be provided as is feasible in the child's natural environments - their home, school and community.

With regard to the particular query regarding Stewarts Care and CRC, the HSE is not aware of any delays at this time. Children's Disability Network Teams have already been established in Donegal, Sligo Leitrim, Limerick, Clare, North Tipperary, Cork, Kerry and Kildare West and Wicklow. By the end of September 2021, CDNTs in Cavan Monaghan, South Tipperary, Carlow, Kilkenny, Wexford, Waterford and Dublin will have commenced. Meath and Louth will reconfigure in October and finally the Midlands in November. Disability Services to support children and their families will continue in the interim during this final planning stage.

Yours sincerely

Dr. Cathal Morgan,
Head of Operations - Disability Services,
Community Operations
