Deputy David Cullinane

Dáil Éireann

Leinster House

Dublin 2.

PQ 43138/21 RE: The occupancy rates of both inpatient acute and ICU beds for each hospital group at 1 July 2021

Dear Deputy Cullinane,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response.

I am advised that due to the cyber-attack the most recent complete data in relation % Occupancy for Acute Inpatient beds is for the month of March. Please see attached the Acute Inpatient bed occupancy for March 2021. Any month after that would only be partial due to data gaps in returns.

In relation to ICU occupancy the National Office of Clinical Audit has provided the attached occupancy rates per hospital group for July 1st 2021 as requested.

I trust this is of assistance.

Yours sincerely,

A handwritten signature in blue ink, appearing to read "Carol Ivory", is positioned above a horizontal line.

Carol Ivory
General Manager,
Acute Operations
