**Deputy Denis Naughten,
Dáil Éireann
Kildare Street
Dublin 2**

PQ 44467/21: To ask the Minister for Health the hospitals that enter into agreements to rent or lease parking space to outside companies; the revenue raised in each location; the duration of the arrangement in each location; and if he will make a statement on the matter

Dear Deputy Naughten,

I refer to the above Parliamentary Question which the Minister for Health has referred to the Health Service Executive for direct response.

The majority of acute hospitals around the country charge for parking at this stage, with nine acute hospitals providing free parking. The HSE does not have a single contract to provide parking services at all hospitals, instead each hospital has its own arrangements, which reflect their particular circumstances. Data collected as part of the Hospital Car Parking Review in 2018 showed that sixteen hospitals use a third party provider to manage their car parks although the car parks may still be owned by the Hospital. Some hospitals may have a third party to service parking meters, entry & exit barriers and security. Data is not available centrally in relation to any arrangements by individual hospitals to lease parking spaces to outside companies.

As you will be aware, there are three different types of hospital provision in Ireland:

- Health Service Executive (HSE) Statutory hospitals, owned and funded by the HSE.
- Voluntary public hospitals, most of whose income comes from State funds.
- Private hospitals

Income data is centrally available for HSE Statutory Hospitals only – accordingly the attached table provides the income generated from car parking in 2020 for HSE Statutory Hospitals, including those run by external providers.

I trust the above information is of assistance to you, however, should you require any further details please do not hesitate to contact me.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Yvonne Goff', written in a cursive style.
