

Neasa Hourigan, T.D.
Dáil Éireann,
Leinster House,
Kildare Street,
Dublin 2.

23rd September 2021

PQ: 45348/21

To ask the Minister for Health his plans to fund the provision of the FreeStyle Libre flash glucose monitoring system to persons with diabetes over 21 years of age based on clinical need; and if he will make a statement on the matter. -Neasa Hourigan

Dear Deputy Hourigan,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question (Reference 45348/21), which you submitted to the Minister for Health for response.

Whilst it was anticipated that the review of FreeStyle Libre Flash Glucose Monitoring System would be finalised at the end of Q1 2020, the public health emergency that has occurred in the meantime has resulted in members of the Health Technology Assessment Group (HTAG), whose primary roles are in Public Health Medicine, being redirected fully to public health emergency duties.

Given the current situation, the HSE are not in a position to progress the HTAG review and publication of the advice note. The HSE has now commissioned a full Health Technology Assessment to be conducted by the NCPE in collaboration with the Medicines Management Programme. This process has commenced as evidenced by the NCPE call for patient group submissions in recent weeks.

Consultant Endocrinologists / Diabetes Nurse Specialists may apply to the HSE, on behalf of specific patients, for reimbursement support of FreeStyle Libre Flash Glucose Monitoring (FGM) sensors. This includes those persons with eligibility under Community Drug Schemes (e.g. medical card holders, those with Long Term Illness eligibility). The application process is undertaken by means of a dedicated online portal, which has been operational since 3rd April 2018. In line with the recommendations outlined of the Health Technology Assessment Group, access to this product was made available to children and young adults (4 -21 years). However, the application process does cater for the Consultant to make an application in very exceptional circumstances for a type 1 diabetic patient outside of this group.

Yours sincerely,

Suzanne Doyle
