Deputy Jennifer Carroll Mac Neill.
Dail Eireann,
Dublin 2.

21st October 2021

PQ Number: 46900/21

PQ Question: To ask the Minister for Health when mental health both in the private sector and those facilitated by the Health Service Executive will recommence fully in-person; and if he will make a statement on the matter - Jennifer Carroll Mac Neill

Dear Deputy Carroll Mac Neill,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response. I have examined the matter and the following outlines the position.

At the onset of the COVID -19 global pandemic, decisions were made to close a number of HSE day care services in order to protect the health, safety and wellbeing of service users. This response relates to Public Mental Health Service as the HSE does not operate the Private Mental Health facilities

Over the past year and a half, the HSE have focused on service continuity and the necessary contingency arrangements that support service provision in a COVID 19 context taking into account the appropriate Infection Prevention Control / Health Protection and Surveillance Centre guidelines. In line with this, the Heads of Mental Health in each of the Community Healthcare Organisations (CHO'S) examined their service provision in terms of service user needs and the current resources available. They have also considered current IPC and HPSC guidance in the context of the current government COVID - 19 roadmap and the current incidence of COVID - 19 in their CHO's.

This meant that mental health services were not discontinued during this time, however there remains some local variation in terms of service delivery.

Please find attached Appendix 1 which I have attached for your information which provides details for each CHO, Name of Day Hospital/Centre, Location, Status, and date reopened/reasons if not yet reopened.
