Kildare Street  
Dublin 2

9<sup>th</sup> March 2022

**PQ 10370/22\* To ask the Minister for Health the amount paid to construction contractors by the HSE in respect of large infrastructure projects at Connolly Hospital Blanchardstown in the past ten years to date by amount, year and project, in tabular form; if he will provide a schedule of projects that required a tender process to be undertaken; and the number of non-complaint tender processes over that time period. -Catherine Murphy**

Dear Deputy Murphy,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question which you submitted to the Minister for Health for response.

Please find attached register of Construction Contractor payments for large infrastructural projects on the Connolly site in the last 10 years. All HSE projects require a tender process in line with the Department of Finance guidance on public procurement and in line with the EU Directives.

There have been no non-compliant tender processes used to procure large infrastructure projects on the Connolly Hospital campus in the last 10 years. The below projects were undertaken during the Covid pandemic, negotiated and awarded without prior publication for reasons of extreme urgency brought about by the Covid pandemic:

- ICU upgrade works
- Labs extension
- Emergency Department extension
- Infusion Suite works
- General Ward Covid readiness

Yours sincerely,

**Jim Curran**  
National Director,  
Capital & Estates
