15th February 2022

PQ 4531/22 * To ask the Minister for Health the status of each existing primary care centre project and expected status by county, by the end of 2022, in tabular form; and if he will make a statement on the matter. -David Cullinane

Dear Deputy Cullinane,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question which you submitted to the Minister for Health for response.

There are 25 Primary Care Centres currently in construction which will open in 2022 with a further 3 Primary Care Centres due to open in 2023, see attached report per county in tabular form as requested.

There are 80 Primary Care Centres are being planned for development, the majority of which are being delivered via the HSE's Primary Care Centre Operational Lease mechanism. The delivery of a primary care centre is dependent on a number of factors such as availability and suitability of site location, GP involvement, service agreement, value for money, full property and HSE Board approval. As the operational lease mechanism is a developer led process the timeframe for the delivery of the primary care centre is determined by the developer and agreed with the HSE. Therefore it would be premature to give an expected status by the end of 2022 for these 80 primary care centres at this time.

Yours sincerely,

Jim Curran
National Director,
Capital & Estates

PQ 4531/22 - Primary Care Centres per county in Construction - Due to open in 2022 & 2023

County	PCT Location or Name(s) (More than 1 name for more than 1 team)	Current Status	Opening Date Expected
