PQ 4555/22 - The annual spend on private ambulances from 2018 to 2021

Dear Deputy Cullinane,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response.

I am advised by HSE Finance that the total private ambulance costs for 2018, 2019 and 2020 are as below. I understand that 2021 is not available until after the year end and the Annual Financial Statement is complete and approved.

2018	2019	2020
9,283,799	10,614,255	10,035,589

I trust this is of assistance to you.

Yours sincerely,

Carol Ivory

General Manager,
