

Cathal Crowe, T.D.
Dáil Éireann,
Leinster House,
Kildare Street,
Dublin 2.

24th February 2022

PQ: 7253/22

To ask the Minister for Health the number of persons with diabetes who were funded for the medtronic guardian continuous glucose monitoring CGM sensors by the long-term illness scheme or the primary care reimbursement service; and the number who were over 21 years of age in 2018, 2019, 2020 and 2021, in tabular form. -Cathal Crowe

Dear Deputy Crowe,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question (Reference 7253/22), which you submitted to the Minister for Health for response.

CGM applications are not managed by the Primary Care Reimbursement Service. They are managed through Aids and Appliances Arrangements at local level where clinical referrals are considered in line with tender arrangements.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Suzanne Doyle'.
