PQ: 7256/22

**To ask the Minister for Health the number of funding applications that were received by the long-term illness scheme and the primary care reimbursement service for the dexcom glucose monitoring system; the number of applications received for persons over 21 years of age; the number of applications approved; the number of applications approved for persons over 21 years of age; and the number of applications that were rejected and the number of applications that were rejected for persons over 21 years of age in each of the years 2018 to 2021, in tabular form. -Cathal Crowe**

Dear Deputy Crowe,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question (Reference 7256/22), which you submitted to the Minister for Health for response.

CGM applications are not managed by the Primary Care Reimbursement Service. They are managed through Aids and Appliances Arrangements at local level where clinical referrals are considered in line with tender arrangements.

Yours sincerely,

A handwritten signature in black ink that reads 'Suzanne Doyle'.
