Re: 2885.21

To ask the Minister for Health if care for adult diabetes patients at Letterkenny University Hospital has evolved to include insulin pump starts; the number of adult diabetes patients with pumps that are attending the hospital; and the frequency with which they get review appointments. -Pádraig Mac Lochlainn

Dear Deputy,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question/Public Representation which you submitted to the Minister for Health for response. I have examined the matter and the following outlines the position.

47 adults attend the infusion pump clinic and they are reviewed a minimum of every 6 months or more frequently if required.

I trust this information is of assistance to you but should you have any further queries please contact me.

Yours Sincerely,

**Seán Murphy
General Manager
Letterkenny General Hospital**
