- Michael Moynihan

Dear Deputy Moynihan,

The Health Service Executive (HSE) has been requested to reply directly to you in the context of the above Parliamentary Question (PQ 36348/22) which you submitted to the Minister for Health for response.

The spread of Covid-19 has posed significant challenges for many service areas, including all Therapy Services. In light of these unprecedented challenges together with the Government's guidance on social distancing and on 'Cocooning' for those aged over 70, the HSE has had to reassess its operation of Community Therapy Services nationally, to ensure that the assessed needs of those clients with the highest priority are met.

The HSE is committed to delivering efficient high quality Speech and Language Therapy services to all eligible service users. In 2021, there were 205,214 patients seen by HSE community Speech and Language Therapy services.

Please find the attached appendices, which contain, in tabular form, details of the waiting lists for Speech and Language Therapy as of May 2022, which is the latest data available at this time. Please note that where an individual CHO was unable to return the waiting list for the month in question, that it is noted at the bottom of the waiting list table.

Please note, in some cases, breakdown of data by age is unavailable.

Appendix 1 – Speech and Language Therapy – Total number of patients awaiting Initial Therapy – May 2022
Appendix 2 – Speech and Language Therapy – Number of 0-17 years & 11 months old patients awaiting Initial Therapy – May 2022

I trust this information is of assistance to you.

Yours sincerely,

A handwritten signature in black ink that reads 'Seán McArt'.
