22nd July 2022

PQ 37298/22- Deputy Louise O'Reilly-To ask the Minister for Health the number of persons who have received Paxlovid antiviral treatment in Ireland; and if he will make a statement on the matter.

Dear Deputy O'Reilly,

Thank you for your representation.

There have been a total of 434 prescriptions for Paxlovid™ notified to the HSE-Primary Care Reimbursement Service (PCRS) between 15/04/2022 and 12/07/2022, based on the current available data. Approximately 75% of these prescriptions were generated in the community setting, while 25% were generated in the hospital setting.

Please note that these figures do not include Paxlovid™ prescribed and dispensed within the hospital setting and only relates to community dispensing.

I hope this provides you with assistance.

Yours sincerely

Sharon Hayden
