10<sup>th</sup> August 2022

Deputy David Cullinane,  
Dail Eireann,  
Leinster House,  
Kildare Street,  
Dublin 2.  
E-mail: [david.cullinane@oireachtas.ie](mailto:david.cullinane@oireachtas.ie)

Dear Deputy Cullinane,

The Health Service Executive has been requested to reply directly to you in the context of the following parliamentary question, which was submitted to this department for response.

**PQ: 41244/22**

*To ask the Minister for Health the number of children on day service waiting lists by CHO in tabular form; the number by wait length; and if he will make a statement on the matter.*

**HSE Response**

Any waiting list regarding day services would only have those eligible for an adult day service ie. those over the age of 18 years. As the question relates to children, the Department of Health have instructed that they are interpreting the term "day service waiting lists" as Waiting Lists for SLT, OT, Physiotherapy and Psychology Services for Children with Disabilities.

The National Policy on Access to Services for Children & Young People with Disability & Developmental Delay ensures that children are directed to the appropriate service based on the complexity of their presenting needs i.e. Primary Care for non-complex functional difficulties and Children's Disability Network Teams for complex functional difficulties.

Primary Care Operations has compiled the latest available waiting list data, on services for which they collate data, for the end of May 2022 for those aged 0 to 17 years and 11 months. Please see the tables provided in the appendix giving the Primary Care waiting lists for each LHO within each CHO Area.

- Table 1 in the Appendix includes the data for Psychology - Number of 0-17 years & 11 months old Patients waiting for treatment May.2022
- Table 2 in the Appendix includes the data for Occupational Therapy - Number of 0-17 years & 11 months old Patients Awaiting First Time Assessment May 2022.
- Table 3 in the Appendix includes the data for Physiotherapy - Number of 0-17 years & 11 months old Patients waiting for Assessment May2022.
- Table 4 in the Appendix includes the data Speech and Language Therapy - Number of 0-17 years & 11 months old patients awaiting Initial Assessment May 2022
- Table 5 in the Appendix includes the data for Speech and Language Therapy - Number of 0-17 years & 11 months old patients awaiting Initial Therapy May 2022.
- Table 6 in the Appendix includes the data for Speech and Language Therapy - Number of 0-17 years & 11 months old patients awaiting Further Therapy May 2022

It is extremely important to note that these lists are for all children awaiting therapy. It is not possible to give separate information on the number of children with a disability as data that is compiled by primary care is not disaggregated by any care group or diagnosis.

### Children’s Disability Network Teams (CDNTs)

In 2021, the remainder of ninety-one multidisciplinary CDNTs were established to provide services and supports for all children with complex needs within a defined geographic area.

Work is ongoing on mapping specialised services and supports, and paediatric supports available and gap analysis for children with highly complex needs in order to develop standardised approaches to integrated pathways of support for CDNTs and Primary Care staff.

Children and their families will have access to the full range of services and supports of the CDNT according to their individual needs. This includes universal, targeted and specialist supports, such as individual therapeutic intervention and access to specialist consultation and assessment when needed. Supports will be provided as is feasible in the child’s natural environments - their home, school and community.

### National Information Management System for the CDNTs (CDNTIMS)

Historically the number of children waitlisted for children’s disability services provided by section 38 and section 39 providers has not been available nationally. The establishment of CDNTs will facilitate the collection of this data. A National Management Information System for all 91 CDNTs is in development and when implemented, will provide current data on waiting lists and other details for all CDNTs. In the interim, manual data collection is on-going and will provide information to the local areas regarding the number of children waiting for each CDNT.

The data provided in the table below shows the number of children that are waiting for an initial contact with a CDNT in the 9 CHO Areas: Data for CHO 1, 2, 3, 4, 6, 7, 9 represents end of May activity; Data from CHO 5 is for end April; and CHO 8 for end March 2022.

Please note that the CDNTs do not collect activity data by individual discipline (such as SLT, Physiotherapy, OT etc) as this does not align with the interdisciplinary model of care. In this context, discipline-specific data is not available.

Please also note that this is an interim dataset as we await the roll out of the National Information Management System and some individual CDNTs indicate that they do not have a system in place to capture this level of activity, therefore there are gaps in data returns for some of the CHO Areas.

Status Report - June 2022	CHO1	CHO2	CHO3	CHO4	CHO5	CHO6	CHO7	CHO8	CHO9
No. of children waiting 0-3 months for an initial contact @ month end	116	273	281	224	56	163	212	398	142
No. of children waiting 4-6 months for an initial contact @ month end	115	803	201	224	247	140	233	1047	162
No. of children waiting 6-12 months for an initial contact @ month end	88	599	250	606	1001	262	752	372	435
No. of children waiting over 12 months for an initial contact @ month end	422	-	340	1892	0	507	1484	1229	2159

Yours Sincerely,

**Mr Bernard O'Regan,**  
**Head of Operations - Disability Services,**  
**Community Operations**
