09th August 2022

Deputy Mark Ward,
Dáil Éireann,
Leinster House,
Kildare Street,
Dublin 2.

PQ 41526/22 – To ask the Minister for Health the number of adults and children in each CHO who are on waiting lists for primary care psychology; the length of time that they have been waiting; and if he will make a statement on the matter.

- Mark Ward

Dear Deputy Ward,

The Health Service Executive (HSE) has been requested to reply directly to you in the context of the above Parliamentary Question (PQ 41526/22) which you submitted to the Minister for Health for response.

It is worth noting that COVID-19 continues to pose significant challenges for many service areas, including all Therapy Services. In light of these unprecedented challenges, together with the Government's guidance on social distancing, the HSE has had to reassess its operation of Community Therapy Services nationally. This has unfortunately had unavoidable negative impacts on waiting lists. The HSE continues to work hard to address these issues and find solutions to the difficulties resulting from the ongoing Covid-19 crisis.

The HSE is committed to delivering efficient high quality Psychology services to all eligible service users. In 2021, there were 45,120 patients seen by HSE community Psychology services.

Please find the attached appendix, which contains, in tabular form, details of the waiting lists for Psychology in each CHO area, as of May 2022, which is the latest data available at this time.

Appendix 1 – Psychology – Number of Patients waiting for treatment – May 2022

I trust this information is of assistance to you.

Yours sincerely,

Seán McArt

General Manager Primary Care
National Community Operations
