

Seán Canney, T.D.
Dáil Éireann,
Leinster House,
Kildare Street,
Dublin 2.

14th June 2022

PQ: 29400/22

To ask the Minister for Health the circumstances in which a patient can make a successful application for individual reimbursement for the cost of using a FreeStyle Libre diabetes treatment device; and if he will make a statement on the matter. -Seán Canney

Dear Deputy Canney,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question (Reference 29400/22), which you submitted to the Minister for Health for response.

FreeStyle Libre Flash Glucose Monitoring (FGM) sensors were made available on an administrative basis to people with Type 1 Diabetes in line with a recommendation accepted by the HSE from the Health Technology Advisory Group from 1st April 2018 (advice note attached). Consultant Endocrinologists may apply to the HSE, on behalf of specific patients, for reimbursement support of FreeStyle Libre Flash Glucose Monitoring (FGM) sensors. The application process is undertaken by means of a dedicated online portal, which has been operational since 3rd April 2018. In line with the recommendations outlined of the Health Technology Assessment Group, access to this product was made available to children and young adults (4 -21 years). However, the application process does cater for the Consultant to make an application in very exceptional circumstances for a type 1 diabetic patient outside of this group.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Suzanne Doyle'.
