Acute Operations,

The Dargan Building, Heuston South Quarter, Military Road, Dublin 8

24th June 2022

Deputy David Cullinane
Dáil Eireann
Leinster House
Dublin 2

PQ 29688/22

The State wide mean, median, and maximum time to admission via an emergency department for all patients, under 75, and 75+ years of age for January, February, March, April and May 2022, in tabular form.

Dear Deputy Cullinane,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response.

I wish to advise that the mean, median and maximum times to admissions via an emergency department for all patients, under 75 and 75+ are not currently reported. In this regard, I do, however, outline for your information the average time to admission in the same respective categories.

Average Waiting times for admission via an Emergency Department:

Age grouping	Jan	Feb	Mar	Apr	May
Under 75	11.2	11.9	12.1	11.2	10.8
75+	15.0	15.4	15.7	14.5	13.5
Grand Total	12.2	12.9	13.2	12.1	11.5

Please note the May data is preliminary and subject to change.

I trust this response is helpful.

Yours sincerely,

Jacqueline McNulty
