22nd June 2022

Deputy David Cullinane
Dáil Éireann
Leinster House
Dublin 2

31676/22 To ask the Minister for Health the number of patients who contracted a hospital acquired infection as a result of being in a hospital ward from 2019 to date, broken down by month, by hospital, by hospital group and by infection type for example, Covid, MRSA, CPE; and if he will make a statement on the matter.

31677/22 To ask the Minister for Health the number of patients who contracted a hospital acquired infection as a result in being in a single isolation room bed from 2019 to date, broken down by month, by hospital, by hospital group and by infection type for example, Covid, MRSA, CPE and so on, in tabular form; and if he will make a statement on the matter.

31680/22 To ask the Minister for Health the number of patients who contracted a hospital acquired infection as a result of being in an intensive care unit bed from 2019 to date broken down by month, by hospital, by hospital group and by infection type for example, Covid, MRSA, CPE and so on, in tabular form; and if he will make a statement on the matter.

31681/22 To ask the Minister for Health the number of hospital acquired infections that have been recorded from 2019 to date; the number of patients infected and transferred from a bed in a ward to a single isolation room bed; the number of patients infected who remained in a hospital ward, broken down by month, by hospital, by hospital group, and by infection type for example, Covid, MRSA, CPE and so on, in tabular form; and if he will make a statement on the matter.

31703/22 To ask the Minister for Health the number of hospital acquired infections recorded in each of the years 2016 to 2021 and to date in in 2022 by hospital, hospital group and infection type for example Covid, MRSA, CPE and so on, in tabular form; and if he will make a statement on the matter.

31705/22 To ask the Minister for Health the number of hospital staff who contracted a hospital acquired infection from 2019 to 2021 and date in 2022, by month, hospital, hospital group and by infection type Covid, MRSA, CPE and so on in tabular form; and if he will make a statement on the matter.

31706/22 To ask the Minister for Health the number of hospital patients who contracted a hospital acquired infection from 2019 to 2021 and to date in 2022, by month, hospital, hospital group and by infection type Covid, MRSA, CPE and so on, in tabular form; and if he will make a statement on the matter.

31707/22 To ask the Minister for Health the number of hospital visitors who contracted a hospital acquired infection from 2019 to 2021 and to date in 2022 by month, hospital, hospital group and by infection type Covid, MRSA, CPE and so on, in tabular form; and if he will make a statement on the matter.

31704/22 To ask the Minister for Health the number of hospital acquired infections recorded from 2019 to 2021 and to date in 2022, by month, hospital, hospital group and by infection type Covid, MRSA, CPE and so on, in tabular form; and if he will make a statement on the matter.

Dear Deputy Cullinane,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response. I have examined the matter and the following outlines the position.

The hospital acquired and hospital associated infections recorded nationally include *staphylococcal aureus* blood stream infections, *C difficile* infections and *COVID-19* infections (the latter only available in monthly rate since 2022). New cases of CPE are also recorded by hospital however please note that these are cases determined due to screening or testing and source of acquisition is not determined and may or may not be hospital acquired from the hospital which detects the infection or another hospital.

The data on these infections is published on a regular basis and for the period up to September 2021 is available at this link:

<https://www.hse.ie/eng/services/publications/performancereports/>

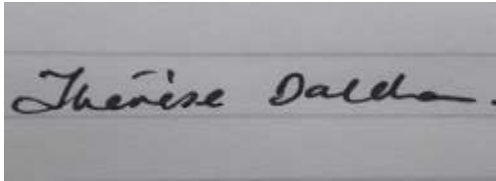

The information from September 2021 to date is appended below and will be available at the link above in due course.

In general it is not possible to be certain regarding where and when a person acquired COVID-19 infection. For the purpose of this surveillance activity the HSE uses a standard definition of hospital acquired infection that takes account of the ECDC case definition. This definition excludes most cases of community acquired infection and includes most cases relating to inpatients with hospital acquired infection.

Patients often remain in several areas of a hospital during their stay therefore it is not possible to ascertain what area of the hospital they were in when they acquired an infection. Surveillance definitions for hospital acquired infections are based on inpatients therefore information regarding staff or visitors would only be included in the data if they were admitted as inpatients.

I trust this answers your question to your satisfaction.

Yours sincerely,
