23<sup>rd</sup> March 2022

**PQ 14637/ 22 Deputy Joe O'Brien - To ask the Minister for Health if he will provide an update on the availability of Evusheld to immunocompromised patients here; and if he will make a statement on the matter.**

Dear Deputy O'Brien,

Thank you for your representation.

Evusheld will be considered for recommendation by the Therapeutics Advisory Group once it has first undergone an initial review by the National Centre for Pharmacoeconomics.

To date, the primary therapeutics which have been recommended by the Therapeutics Advisory Group are Sotrovimab and Paxlovid which were recommended based on available data and EMA authorisation.

I hope this provides you with some assistance.

Yours sincerely
