Dail Eireann,
Leinster House,
Kildare Street,
Dublin 2.
E-mail: david.cullinane@oireachtas.ie

Dear Deputy Cullinane,

The Health Service Executive has been requested to reply directly to you in the context of the following parliamentary question, which was submitted to this department for response.

PQ 21823/22

To ask the Minister for Health if any disability services for children have been suspended following the recent cases taken or decided in the courts; and if he will make a statement on the matter.

HSE Response

The HSE's Standard Operating Procedure for Assessment of Need (SOP) was implemented for all new applications for AON from 15th January 2020. However, the recent judgement of Ms Justice Phelan in the High Court directed that the Preliminary Team Assessment approach does not fulfil the requirements of the Disability Act. The judgement states that a diagnosis is required to determine the nature and extent of a person's disability. The implications of any ruling from the Court of Appeal will be considered as soon as this becomes available.

The HSE will implement a process over the coming weeks for a revised approach to Assessment of Need. In developing this, the HSE will include a wide range of stakeholders, including families, providers, staff and representative bodies, in an intensive consultation to develop a pathway for AONs that seeks to comply with the requirements of the Act but also protects the commitment to the provision of intervention and principles as set out above.

Assessment of Need reports will no longer be issued on the basis of a Preliminary Team Assessment and the HSE will engage directly with the families of those who received a PTA to establish if they wish to receive a further assessment under the terms of the Disability Act. Where appointments have already been scheduled with children, these will form the first step in their AON process. The HSE remains committed to the delivery of appropriate services for children with disabilities and will work with families and staff to develop services that meet their needs.

The HSE are reviewing the files of all children who received a preliminary team assessment to establish what additional assessments will be required to meet the requirements of the Act. Plans to address these needs will be finalised in the coming weeks.

In the meantime, there has been no suspension of disability services for children.

Yours sincerely

Bernard O'Regan
