31st May 2022

Deputy David Cullinane
Dáil Éireann
Kildare Street
Dublin 2

PQ ref 24149/22 –To ask the Minister for Health the total revenue and net revenue generated by each hospital car park for each hospital in 2021, in tabular form; and if he will make a statement on the matter.

Dear Deputy Cullinane,

The Health Service Executive (HSE) has been requested to reply directly to you in the context of the above Parliamentary Question which you submitted to the Minister for response.

The majority of acute hospitals around the country charge for parking at this stage, with nine acute hospitals providing free car parking. Data collected as part of the Hospital Car Parking Review in 2018 showed that sixteen hospitals use a third party provider to manage their car parks although the car parks may still be owned by the Hospital. Some hospitals have a third party to service parking meters, entry and exit barriers and for security.

As you will be aware, there are three different types of hospital provision in Ireland;

- Health Service Executive (HSE) Statutory hospitals, owned and funded by the HSE
- Voluntary public hospitals, most of whose income comes from State funds
- Private hospitals.

Income data is centrally available for HSE Statutory hospitals only – accordingly the attached table provides the income generated from car parking for 2021 for HSE Statutory hospitals. Please note, the figures for 2021 are taken from the unaudited draft HSE Annual Financial Statements (AFS) data and are subject to change during the year end audit and approval process.

I trust the attached and above information is of assistance to you.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Y Goff', is positioned above a horizontal line.

Yvonne Goff
National Director,
Change & Innovation

HSE Statutory Hospitals – Car Park Income for 2021.

	Ireland East Hospital Group	Car Park Situation*	Operated by*	Income 2021**
