2<sup>nd</sup> December 2022

**PQ Ref 58063/22**

**To ask the Minister for Health the number of persons who have died by suicide under the age of 60 years by age and county in each of the years 2018 to 2021 and to date in 2022, in tabular form.**

Dear Deputy,

The HSE National Office for Suicide Prevention (NOSP) has been requested to respond to your question above.

In Ireland, the Central Statistics Office (CSO) provides mortality data including deaths by suicide, not the HSE. The CSO is Ireland's national statistical office and its purpose is to impartially collect, analyse and make available statistics about Ireland's people, society and economy. It is attached to the Department of the Taoiseach.

Information is publicly available from the CSO ([www.cso.ie](http://www.cso.ie)) and in their main data dissemination service (<https://data.cso.ie/#>).

You can contact the CSO (<https://www.cso.ie/en/aboutus/contactus/>) or their Vital Statistics department directly (<https://www.cso.ie/en/releasesandpublications/ep/p-vsar/vitalstatisticsannualreport2020/contactdetails/>).

## Information requested

The information you have requested is not consistently available across the CSO tables, and you may like to contact the CSO with your specific enquiry.

However, the following three tables extracted from various CSO sources may assist you.

- Table 1) Number of suicide deaths by county, 2018–2022
- Table 2) Number of suicide deaths by age category, 2018–2022
- Table 3) Number of suicide deaths by age category and county, 2018

## Caveats

Death due to intentional self-harm is classified as an unnatural death and therefore, must be referred to the Coroner for investigation. This investigation can take a protracted length of time to complete for various reasons (such as getting medical reports, health and safety reports, engineer's report, and involvement of the Director of Public Prosecutions etc.) and this delays the registration of such deaths.

Data from the CSO is published in different stages:

- Numbers of deaths are provided firstly based on year of registration – 'provisional'
- They are revised later, by year of occurrence – 'official'
- Finally they are revised later again, to include 'late registrations'.

**Note:** These numbers are not easily comparable across different years – at any given time, data for different years is at different stages. Therefore the information in each table, may not be like-for-like in another table. Additionally, all the figures in the following tables *exclude* late registration data. A summary of information that includes late registration data (to 2019) is available from the CSO at <https://www.cso.ie/en/releasesandpublications/ep/p-ss/suicidestatistics2019/>.

Table 1) Number of suicide deaths by county, 2018–2022

County	2018*	2019*	2020*	2021*	2022 Q1**	2022 Q2**	Total
Carlow	5	5	13	8	-	-	31
Cavan	14	12	16	14	-	-	56
