Our Ref: PQ 58245/22

16<sup>th</sup> December 2022

**Deputy Eoin O'Bróin**  
**Dáil Eireann**  
**Dublin 2**

Dear Deputy O'Bróin

I refer to your recent PQ which has been forwarded to me for attention.

**PQ 58245/22: To ask the Minister for Health the number of paediatric urology surgeries that have been carried out at a hospital (Hospital: CHI at Crumlin. Condition: Hypospadias Penescrotal) to date in 2022; and the number of those that have been undertaken in order to treat a specific condition.**

**Childrens Health Ireland (CHI) Response:**

Children's Health Ireland (CHI) at Crumlin can advise that 74 patients have had surgery for different types of hypospadias since the 1<sup>st</sup> of January 2022 to the 8<sup>th</sup> of December 2022. It is important to note however that the detail is not available regarding the particulate type of hypospadias repair outlined in your parliamentary question.

Yours sincerely

---
