13th December 2022

PQ 58914/22*To ask the Minister for Health if he will confirm whether any capital funding or supports have been contributed to the construction or maintenance of the primary care centre on the Navan Road; and if he can confirm any ongoing supports currently available to the centre. -Joan Collins

Dear Deputy Collins,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response.

The primary care centre on the Navan Road was delivered via the HSE operational lease mechanism, and became operational in 2015. Under this lease accommodation is provided for two HSE Primary Care Teams and one GP practice, operating on integrated basis.

The HSE has entered into a service level agreement with the landlord, to provide ongoing maintenance service for the premises for the full duration of the lease.

In addition to the lease costs and the ongoing maintenance service charges, capital funding of €286,300 was invested in the equipping of the building to enable opening.

Yours sincerely,

Paul de Freine
National Director,
Capital & Estates
