**Re: PQ 51819/22 –  
MRI Scanner – Wexford General Hospital**

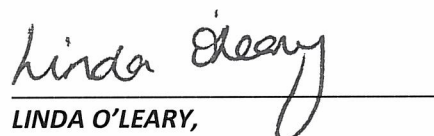

Dear Deputy Mythen,

I refer to recent PQ with regard to the new MRI Scanner at Wexford General Hospital, which has been referred to me for direct response.

I can confirm that the Design Team for the project was appointed on 28/09/2022. They have since met and Stage 1 of the design process has commenced. It is envisaged that construction stage will commence in late 2023, subject to no issues arising.

I trust that this information is helpful to you.

Yours sincerely,

**LINDA O'LEARY,**  
**HOSPITAL MANAGER.**
