**20<sup>th</sup> September 2022**

**Deputy Alan Kelly,  
Dáil Éireann,  
Leinster House,  
Kildare Street,  
Dublin 2.**

**PQ 46005/22 – To ask the Minister for Health the number of children who are waiting for ophthalmology treatment by county as of 15 September 2022, in tabular form.**

**- Alan Kelly**

---

Dear Deputy Kelly,

The Health Service Executive (HSE) has been requested to reply directly to you in the context of the above Parliamentary Question (PQ 46005/22) which you submitted to the Minister for Health for response.

It is worth noting that COVID-19 has posed significant challenges for many service areas, including all community Services. In light of these unprecedented challenges, together with the Government's guidance on social distancing, the HSE has had to reassess its operation of Community Services nationally. This has unfortunately had unavoidable negative impacts on waiting lists. The HSE continues to work hard to address these issues and find solutions to the difficulties resulting from the ongoing Covid-19 crisis.

The HSE is committed to delivering efficient high quality Ophthalmology services to all eligible service users. In 2021, there were 70,105 patients seen by HSE community Ophthalmology services.

Please find the attached appendix, which contains, in tabular form, details of the waiting lists for Child and Adolescent Ophthalmology in each CHO area, as of July 2022, which is the latest data available at this time.

Appendix 1 – Number of 0-17 years & 11 months old Patients waiting for treatment July 2022

I trust this information is of assistance to you.

Yours sincerely,

**Seán McArt**  
General Manager Primary Care  
National Community Operations
