17th October 2022

PQ 47371/22 - Deputy Catherine Connolly- To ask the Minister for Health further to Parliamentary Question No. 505 of 20 September 2022, if he will provide details of the review commissioned by the HSE of the evidence regarding long-Covid, including the models of care in other jurisdictions, from the Health Information and Quality Authority; the other jurisdictions that are being studied as part of the review; when the review commenced; the timeline for the completion of the review; if the final review report will be published; the terms of reference of the review; and if he will make a statement on the matter.

Dear Deputy Connolly

Thank you for your representation.

The HSE have commissioned HIQA to complete a review of the most recent evidence base for Long Covid. This will be key to determining any required adaptations to the Model of Care. It is anticipated that the HIQA review will be finalised by early November 2022. This will include evidence regarding Long COVID models of care from other jurisdictions.

I hope this provides you with assistance.

Yours sincerely

Sharon Hayden
