“To ask the Minister for Health the caseload and headcount of staff and children awaiting intervention in the east Cork city children's disability network team in tabular form.”

Dear Deputy Sherlock,

The Health Service Executive has been requested to reply to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response.

Children’s Disability Network Teams (CDNTs) have been established to provide services and supports for all children with complex needs within a defined geographic area.

Under Phase 1 and Phase 2 Cork Kerry Community Healthcare (CKCH) received 7.5 wte posts with an additional of 5.8 posts under Minister Rabbittes Special School allocation. 2022 NSP posts approved in Phase I was 14.5 WTE and of the 25.9 posts for special schools awarded in August, 22.2 WTE are for Cork network teams and the applicable number for **East Cork City CDNT** is reflected in the table below - discussions are ongoing in relation to breakdown into specific roles for special schools.

We are unable to provide a breakdown of data on those awaiting intervention as at any one time a number of children may be in receipt of some interventions but may also be waiting for other interventions and without ICT systems we are unable to provide that level of breakdown at this time.
