24th January 2023

Deputy Joan Collins,
Dail Eireann,
Leinster House,
Kildare Street,
Dublin 2.
E-mail: joan.collins@oireachtas.ie

Dear Deputy O'Dea,

The Health Service Executive has been requested to reply directly to you in the context of the following parliamentary question, which was submitted to this department for response.

PQ: 2867/23

To ask the Minister for Health if he will provide an update on the community neuro-rehabilitation teams that have been set up in every CHO, particularly for CHO7 (details supplied).

Details Supplied: Only two of the nine have been delivered to date and only 15% of people have access to community rehabilitation teams

HSE Response

The Programme for Government – 'Our Shared Future' - includes a commitment for advancing neuro-rehabilitation services in the community. The Health Service Executive is leading on the implementation framework in respect of the recommendations of the National Policy and Strategy for the provision of Neuro-Rehabilitation Services in Ireland 2011-2015.

The Neuro-Rehabilitation Strategy Implementation Framework (IF) was launched in February 2019. The overarching aim of the Strategy is the development of neuro-rehabilitation services to improve patient outcomes by providing safe, high quality, person-centred neuro-rehabilitation at the lowest appropriate level of complexity. This must be integrated across the care pathway, and provided as close to home as possible or in specialist centres where necessary. These services are to be configured into population based managed clinical rehabilitation networks (MCRNs). The overarching aim is the development of population based MCRN's around the country.

In order to test the feasibility of this new MCRN model in the Irish context, a decision was made by the Neuro-Rehab Steering Group to run two demonstrator projects within CHO6 and CHO7 to assess

the feasibility of the model to inform national roll-out. An agreement has been reached on the location of the two community neuro-rehab teams within CHO6 and CHO7. Disability Services are working with Primary Care and the Level 2 in-patient rehab facilities to identify a suitable governance model for this team.

In CHO 7, Disability Services are working with Primary Care and Peamount Healthcare to identify a suitable governance model for this team. On agreement of the governance model, recruitment will be progressed in Q4 2022.

A location for the Community Neuro-rehab Team (CNRT) has been agreed in CHO 7. The team will be based in Peamount Healthcare.

Within CHO 3 and CHO 1 there are Community Neuro-Rehabilitation Team's that pre-date the strategy. There is currently no Community Neuro-Rehab Team operational within CHO 2, 4,5,8,9 however, moving forward with the strategy, the plan will be to create a population-based Community Neuro-Rehabilitation Team within each CHO, or RHA following the implementation of the new Regional Health Areas within Slaintecare.

An additional two teams will be introduced to the demonstrator project in two new CHO's in 2023.

Yours Sincerely,

**Mr Brian J Higgins,
Assistant National Director,
Change Planning and Delivery,
Disability and Mental Health Services**
