Dear Deputy Cullinane,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary question, which you submitted to the Minister for Health for response. I have examined the matter and the following outlines the position.

We are unable to specifically identify and separate the grades who work exclusively in emergency departments as the Personnel Census does not go into this level of detail (WTE assigned to specific hospital locations).

I have therefore provided a report detailing total employment staffing for each year from 2017 to 2022, taking December as the marker.

I trust the above is of assistance.

Yours sincerely,

John Smith
Assistant National Director
Acute Operations
